Dear Bruno,

Security situation around the plant clam & security measure accepted and far from the plant. roads to plant closed from both side. Fighting continued with moderate level comparing with past 2 days, Mainly on east side Ain alarb.

1. On the east of Ain alarb, most of the clashes taken place along with Turkish border in west of Tel-abyed area. it has many small villages mixed Arab and Kurds. Islamic state rained the area with more than 3000 mortar bombs down on PYD positions in aljrown alasd village. This village east of Ain arab approximately 35 km strategically very important it's called gate of Ain alarb, most PYD forces in this village, Islamic state still holding the captured villages which was taken 2 days ago. I'm following the events in the east side through my contacts.
2. West side. Islamic state still in advantage positions over PYD. but it was calm no clashes have been reporting. during the past 24 hours I'm following the events in the west side through my contacts.
3. Siren and grain silos, its clam no clashes have been reporting I'm following the events in Siren through my contacts.

Mohammad who is in charge as liaison from PYD. side with plant came yesterday evening informed us the situation is butter now than before but still very dangers from the east side. And he well fellow up the plant issues during troubled days.

Best regards

Ahmad Jaloudi | Risk Manager
