Dear Frederic :

after I checked the photos and I write my comments for each one as seem to me

- all these photos for our plant except two photos for Shiraz restaurant near our plant .
- this photos for (coal mill , cement mill , CPP and black start , packing area)
- seem the big damage in black start (completely destroyed) and backing area and near coal mill .
- I didn't see it on any website but I received most of them on whats app during last week from many cordish persons .

my conclusion from these photos, two explosions happened in CPP and one in packing area and one near coal mill area

for the packing and CPP building no body can guess from out side but as seem big damage

Dear all

Please get a look on these pictures and answer the questions.

Don't distribute them, I would like your comments first.

Thanks

Frederic

Dear Hassan

Can you please look deeply at all these pictures?

What can you assess about the damages? Please make a comment about each picture :

- is it our plant?
- which area ?
- how much damage?
- was this photo available on any website recently?
- any other comment?

Thanks
Frederic
