Dear Frederic,
Kurdish fighters expand their offensive Tuesday after driving Isis militants and retake dozen of surrounding villages no further concentrations of Islamic State fighters have been detected – all of them are outside the city boundary.
this advance came as a result of improved coordination between the coalition and the forces fighting in Kobani.
"ISIS is weaker now, and paralyzed, unable to stop Kurdish advance..
The tactical situation around Kobani

- Kurdish forces 6 kilometer's to the west of Kobane
- 6 kilometers to the south.
- 3 kilometer's to the east.
- Peshmerga are bombing IS-held sites with medium and heavy weapons around kobani.
- In the east side Kurdish forces searching from house to house looking for snipers, dismantling booby-traps and exploding mines and IEDs.
- Destruction will make hard for the refuges to return soon no water no electricity no sewage system in the city 45%from the total area destructive.

Supporters of the Islamic State claimed on social media that the withdrawal from Kobani was simply a decision to send fighters to more important fronts Kobani not as important to the Islamic State's as Mosul or Raqqa.

1300 fighters died at Kabana, at least 979 from the Islamic State, including 38 suicide bombers, 324 fighters from YPG, 12 fighters from the FSA and 12 civilians killed in IS mortar attacks. Many more IS fighters are thought to have died in Coalition airstrikes and remain unaccounted for.

Araqqa

Yesterday coalition and the regime lunched heavy airstrike both on city.

Plant activity

Yesterday approximately 12 trucks parking outside the plant waiting for loading, there is a good quantity of our packs in Arraqa markets, until now according to my contact to trucks coming to the plant.
